ELECTRICITY USAGE POLICY

We enjoy a very comfortable life by using electricity, but we must also be aware global issue. One of the most immediate benefits of saving electricity is the amount of money we will save each month on our utility bills. Another benefit of using less electricity is the positive impact you can have on the environment.

Objectives:

1. To analyze the energy flow in a building and understand its energy its energy dynamics
2. To reduce the amount of energy input into the building.
3. To indicate how and where we can reduce energy consumption and save Energy Cost
4. To learn how to work a group.
5. To be able to teach and promote knowledge to the others.

Policy on Electricity Usage:

1. Turn off light when it is not required.
2. Use available sunlight to illuminate your work spaces.
3. Replace incandescent light bulbs with compact fluorescent lamp
4. Use LED bulbs save more electricity
5. Do Energy Audit regularly
6. Switch off monitors when not in use
7. Make more use of solar energy and finally electricity bill at O' zero
